Healthcare Technology Package

An all-inclusive IT setup with everything you need to organize, grow, and thrive.

You work hard every day to build a healthcare practice that serves the needs of your patients. A key component to providing best-in-class service is an agile technology platform that streamlines the tasks associated with patient care, billing management, HIPAA compliance, and more.

Don't waste time trying to source all your technology components. Reliable IT Healthcare is your one-stop solution offering a **Complete Office Technology Package** that suits the needs of your practice.

Once we've consulted with you and your staff, we can develop a package that includes the right mix of the following:

Desktop in the Cloud	Hardware as a Service	Phone System	Annual IT Review	Office 365 Office, Exchange, SharePoint, OneNote, OneDrive, etc.
Active Directory for Security	File/Print Server	Mobile Device Management	Annual HIPAA/ Risk Assessment	Asset Management
Virus Protection	24x7 Help Desk	Onsite Support Time and Materials	3rd Party Vendor Management	Discounted Hardware and Software
Practice Management/ EMR Consulting	Virtual CxO Services	vChief Clinical Officer	vChief Technology Officer	vChief Operations Officer

Bundling all of your technology needs into one package means integration is seamless and **cost savings are significant**.

Let us help you package a technology framework for your practice.
